

PIG® Build-A-Berm® Barrier Kit

PLR222 Ideal For Long-Term Custom Containment, 5.5" W x 50' L x 2" H, 1 each

Build a semi-permanent barrier around your machinery or storage areas with our crush-resistant spill berm kit.

- Barriers can be constructed into a semi-permanent, high-visibility barrier that's exactly the size and shape you need - indoors or out
- Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment
- Durable, 18-oz. all-vinyl covering resists oils, coolants and most chemicals
- Cut to length with utility knife; for best sealing results, secure to a smooth, sealed surface with Sili-Thane sealant (included); join seams with Industrial-Strength Vinyl Cement (sold separately)
- Contain leaks and spills around your machinery without building expensive concrete curbs or cutting and installing angle iron
- High-visibility yellow color draws attention to barrier for increased safety
- Easy removal requires only a flat-bladed shovel
- Great for use around battery charging stations, machinery or any other leak-prone areas
- Kit includes straight sections, corners and Sili-Thane sealant; create any length, shape or configuration to suit your application or environment
